Subject:

Gentlemen:

It is requested that this Contractor receive a "no cost" amendment on subject contract extending delivery of the Model 635 Wide-Scan High Power Stereoviewer to 15 April 1967.

This Contractor has every reason to believe that delivery will be made by 31 March 1967. The additional two weeks have been added to cover unanticipated difficulties and possible changes which might be requested by the Contracting Officer's Technical Representative during his pre-delivery inspection of the equipment.

If we can provide any additional information, please do not hesitate to contact us.

Very truly yours,

Executive Vice President
